INSTRUCTIONS FOR THE ETHICS ROUND TABLE DISCUSSIONS

1. First and foremost I want to thank you for participating in the round table discussions at the 2014 Advanced Actuarial Conference.

2. When you arrive at the Conference and register you will be advised of the table number to which you’ve been assigned. Please seat yourself at that table at the outset of the session.

3. The entire session will be 75 minutes in length. I will provide a very short overview of ethical and professional considerations and issues. I expect my comments to be brief. The balance of 75 minutes will then be devoted to the round table discussions on the case studies that are being provided to you.

4. Each round table will have a moderator who is an experienced practitioner. They will help your table identify the ethical and professional dilemmas and then assist you in reaching an appropriate resolution. I hope everyone will take an active part in these sessions.
